PROFESSIONAL SUMMARY

DevOps Engineer with 6+ years of experience in cloud infrastructure, automation, and site reliability. Expert in building and maintaining CI/CD pipelines, container orchestration, and infrastructure as code. Strong focus on security, monitoring, and cost optimization.

TECHNICAL SKILLS

Cloud Platforms: AWS (Expert), GCP, Azure

Containers: Docker, Kubernetes, ECS, EKS, Helm

IaC: Terraform, CloudFormation, Ansible, Pulumi

CI/CD: Jenkins, GitLab CI, GitHub Actions, ArgoCD, Spinnaker

Monitoring: Prometheus, Grafana, Datadog, ELK Stack, PagerDuty

Scripting: Bash, Python, Go

Security: HashiCorp Vault, AWS IAM, SOPS, OPA

WORK EXPERIENCE

Senior DevOps Engineer | CloudNative Inc. | May 2021 - Present

- Architected multi-region Kubernetes infrastructure serving 5M+ requests/day
- Reduced infrastructure costs by 35% through right-sizing and spot instances
- Implemented GitOps workflow with ArgoCD for 50+ microservices
- Built self-service platform enabling developers to deploy independently
- Led incident response and achieved 99.99% uptime SLA

DevOps Engineer | TechScale Solutions | Aug 2019 - Apr 2021

- Migrated legacy applications to containerized architecture on AWS EKS
- Developed Terraform modules for standardized infrastructure provisioning
- Created monitoring dashboards and alerting rules (reduced MTTR by 60%)

- Implemented secrets management using HashiCorp Vault

Systems Administrator | DataCenter Corp | Mar 2017 - Jul 2019

- Managed Linux servers (500+ instances) in hybrid cloud environment
- Automated routine tasks using Ansible playbooks
- Configured and maintained backup and disaster recovery systems
- Provided 24/7 on-call support for production systems

EDUCATION

Bachelor of Science in Information Technology

University of Colorado Boulder | 2013 - 2017

CERTIFICATIONS

- AWS Certified DevOps Engineer - Professional (2022)
- Certified Kubernetes Administrator (CKA) (2021)
- HashiCorp Certified Terraform Associate (2020)

PROJECTS

- Open-source Kubernetes operator for database management (500+ GitHub stars)
- Technical blog on DevOps best practices (5K monthly readers)
